

# SAFELY FAST CHARGE ANYTIME

## *Express*<sup>®</sup>

Designed exclusively for Express<sup>®</sup> batteries, Express<sup>®</sup> battery chargers quickly and safely fast-charge batteries anytime during the workday. They can also adapt to a wide range of battery capacities, potentially reducing the number of chargers in a fleet.

## FAST & RELIABLE

- The IONIC<sup>™</sup> charging profile consistently diagnoses the battery throughout the recharge and adjusts the charging profile to effectively charge the battery.
- The intelligent diagnostic sampling provides more rapid optimized charging of flooded cell batteries subject to very high demands.
- Innovative Active Temperature/Output Management technology ensures batteries receive optimal charging at every plug-in.
- Units are equipped with a Wi-iQ<sup>®</sup> battery monitoring device to provide battery voltage and capacity data.
- Express<sup>®</sup> battery chargers are California Energy Commission (CEC) compliant and UL certified.
- Dual-cable and parallel configurations also available for increased charging speed, based on your application.\*

\*Requires compatible battery configuration, please ask your EnerSys<sup>®</sup> representative for more details.
