Joey Features - Key Selling Points vs. Competition

126" Platform Height - 10" higher than brand "C"

Load Capacity - 1000 lbs. total vehicle capacity

Open Battery Compartment - Allows for industrial battery for longer run times or off the shelf battery packs

Tow Hitch - tug carts ; increases trucks cargo capacity

AC Drive Motor - lower maintenance costs with longer run times and torque than DC powered competition

Power Steering - intuitive tiller steering spinner knob

Maneuverability - Zero turning radius, turns in 72" aisle

High Mount Drive Unit - stays dust free - lower PM costs

Heavier Chassis Weight - greater stability at working height

9.5" Operator Compartment Entry Step Height - allows easier entry and exit than brand "C"
