LOWER OPERATING COSTS **INCREASE PRODUCTIVITY**

The new LPE-50 & LPE-60 from BIG JOE comes with two drive motors for higher performance and better turning radius. They are real workhorses and love to operate outdoors. With it's dual traction drive motors it is perfect for higher performance application on the yard as well as loading and unloading sideways.

■ Dual Driving Motor

They come with two drive motors for higher performance and better turning radius.

■ Fast Charging Lithium Battery

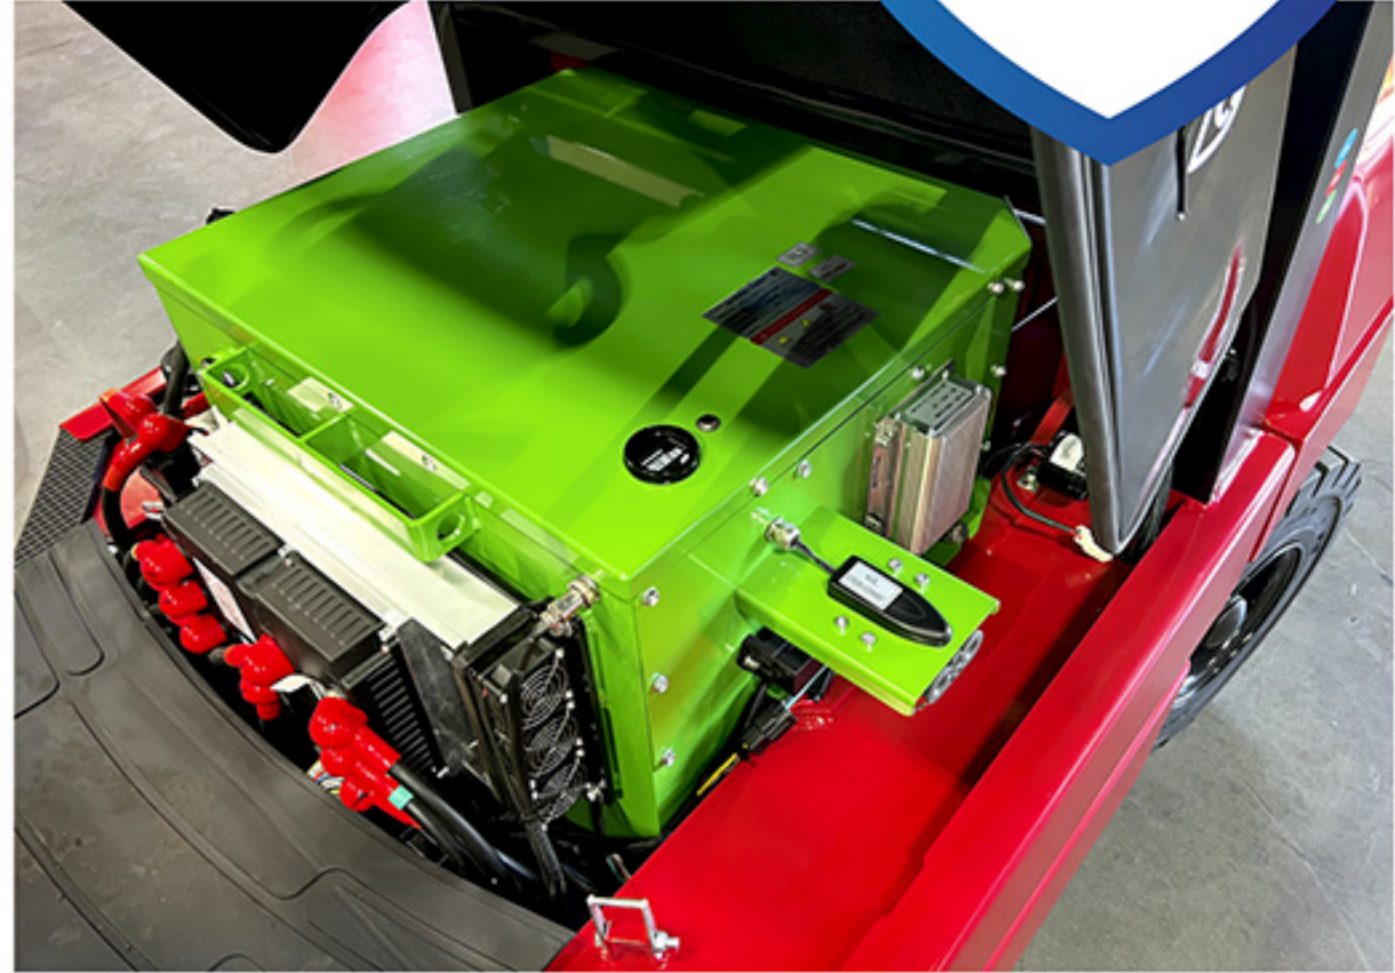

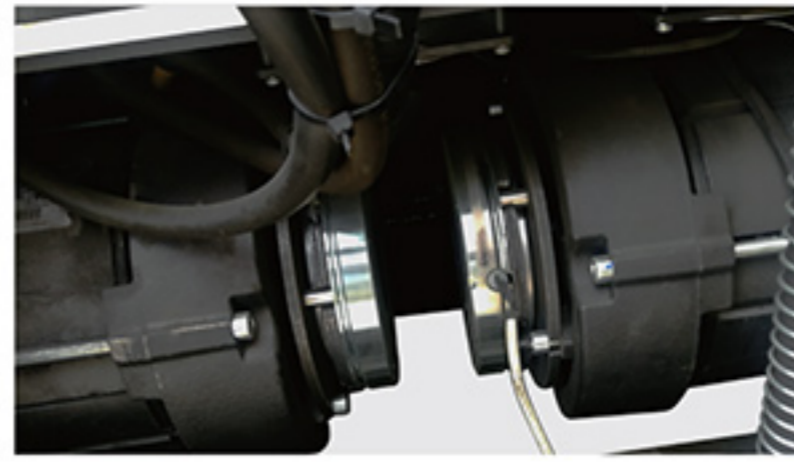

It is equipped with an Li-ion battery, which provides opportunity charging. It can be charged up to 7% in 10 minutes.

■ Strengthening Truck Frame

CJ mast gives both great mechanical strength and wider operation view. They adopt a one-piece panel on the sides to optimize crashworthiness, safety, and overall appearance.
