LOWER OPERATING COSTS

INCREASE PRODUCTIVITY

Say goodbye to replacing propane tanks and watering your old electric forklift batteries. TOTAL WAREHOUSE & BIG JOE have teamed up to offer the incredible ALL NEW **LXE-44** Lithium Battery Electric Forklift. These warehouse workhorses provide the same dependable output you count on from a BIG JOE lift, but now they are powered with a clean, waterless battery cores. Downtime during working shifts is a thing of the past with the **LXE-44's** easy rapid PLUG-N-CHARGE energy system.

Our engineers understand lifting power is integral to a forklift's overall value, so they've included an energy output management system to ensure your **LXE-44** remains reliable from start to finish of a job. For years our customers have demanded an electric lift that doesn't require watering... and now there is an answer: the **LXE-44**!
