Linde Material Handling

The Linde logo is displayed in white cursive script on a red background.

Safety

Linde ProtectorFrame: The overhead guard and its supporting frame form a strong and completely enclosed protective zone providing optimum structural integrity and safety. The top mounted tilt cylinders provide seamless, smooth control of the tilt movements for excellent load stability in all operating conditions.

Performance

Low fuel consumption levels, low exhaust emissions, and impressive performance. Advanced engine and drive technology combined with the original Linde Load Control system enable the operator to use the truck's potential to maximise productivity. Comfortable and precise fingertip control of all hydraulic functions.

Comfort

Climb on board relaxed, finish the shift relaxed. Designed to the most advanced ergonomic standards. Spacious cab interior, adjustable armrest, suspension seat, and functional positioning of easy-actuation controls make for a stress-free working environment.

Reliability

Proven in tough sustained operations. Isolation of the cab from the mast, drive axle and chassis results in reduced shock and vibrations. Maintenance-free and elastic mounting of axles and tilt cylinders cuts downtime and operating costs.

Productivity

Effective and cost efficient: The "New Generation" Linde hydrostatic drive eliminates torque converter transmission, clutch, differential, and drum brakes. As a result, servicing costs are low, truck uptime is high and productivity is enhanced.

Standard and optional equipment

Standard equipment:

3-function hydraulic control valve with “finger-tip control” handles and armrest with storage compartment

Linde engine protection system (LEPS)

Linde Curve Assist

Linde twin drive pedals to control forward/reverse travel and braking

Linde Load Control integrated in armrest

Hydraulic-suspension comfort-class seat with extensive range of adjustments

Hydrostatic steering with on-demand power assist

Dual engine combustion air pre-cleaners

High-performance hydraulic filters

Comprehensive overhead digital instrumentation display (anti-glare surface)

Load back rest (LBR)

Plenty of storage space

Top-mounted tilt cylinders

Zero-maintenance mast and tilt cylinder mountings

Twin front work lamps

Regulated catalytic muffler (LP)

Parking brake

Tow pin

Anti restart ignition

LPG ultrasonic fuel level indicator

Options:

Single drive pedal with direction selector positioned on armrest

Integral sideshift

Auxiliary hydraulic circuits for all mast types

Overhead guard can be upgraded to full cabin with roof, front and rear screens and doors (also available with tinted glass)

Wiper-washers for front, rear and roof screens

Cab heater with integral pollen filter

Roof shade, clipboard, interior lighting

Truck lighting, work lamps

Audible reversing alarm, amber warning light

Paperwork clip board

17° Pivoting operators seat

Electronic tilt angle limiting

Custom paint

Mirrors

Other options available on request

Features

Original Linde hydrostatic drive

- Responsive, smooth and precise driving
- No clutch, differential or drum brakes; hydrostatic drive assumes function of service brake
- Robust drive system, proven in severe duty environments
- Low maintenance costs and long life

Linde ProtectorFrame

- Safe and robust chassis, enclosed on all sides
- Engine hood and servicing doors open wide for convenient access to all components

Linde dual travel control

- Quick change of forward/reverse direction
- Short pedal stroke
- No leg fatigue
- Increased productivity

Linde Load Control (LLC)

- Accurate, safe load handling
- Effortless fingertip control of all hydraulic functions
- Traction and all hydraulic functions completely separate

High-economy engine technology

- LPG engines incorporating the most advanced technology
- High torque
- Low fuel consumption
- Low exhaust gas and soot emission levels

Operator compartment

- Designed to advanced ergonomic standards
- Spacious cab with automobile equivalent legroom
- Excellent visibility of load and surroundings
- Cushioned drive and steer axles reduce road shock
- Standard sound abatement design (73 dBa)

Linde Truck Control (LTC)

- Reliable microprocessor controller technology
- Easily matched to individual application requirements
- Component protection resulting from redundant monitoring systems
- Automatic control of engine RPM

Linde clear-view mast

- Superb visibility
- Exceptional residual capacity
- Zero-maintenance shock mounting of mast and tilt cylinders
- Electronic limiting of tilt angle
