### ORDER PICKING PLATFORM CARTS

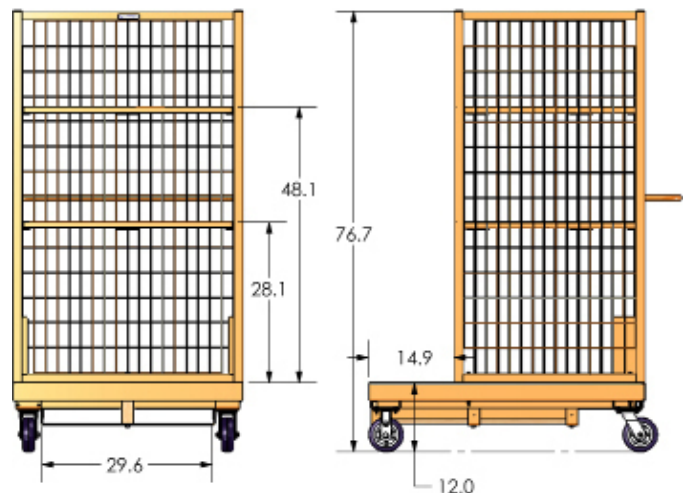

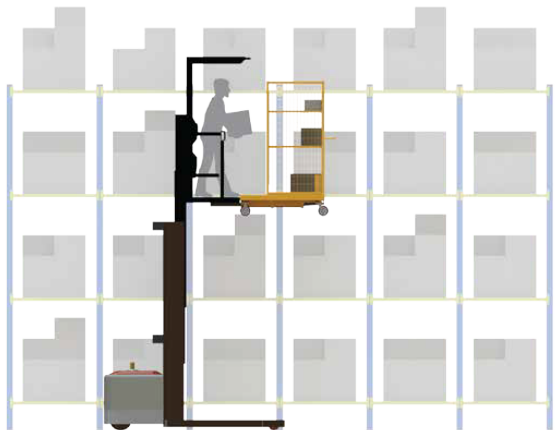

This versatile order picking cart can be adapted for use via man power or vertical forklift. Featuring heavy duty steel pockets that accept forklifts, as well as heavy duty polyurethane and phenolic wheels and casters for man powered movement. The removable and stowable shelves allow you to adjust your cart as needed.

#### FEATURES:

- Heavy duty steel construction
- Wire grid is sturdy but lightweight to secure products within cart
- Ships fully assembled and ready for immediate use
- Designs for Raymond, Crown, and Hyster fork lifts
- 2" x 4" wooden grip board secures forklift in place
- Removable/stowable shelves allow you to adjust your cart as needed
- Shelves stow away vertically in the rear of the cart when not in use
- Ease of mobility with swivel casters reduces damage done to products on the cart and store fixtures
- 1000 lb. capacity

Shelves Stowed
